Observing Single-Photon Interference

[Student name]

Queen's University Belfast
PHY2001 — Quantum and Statistical Physics

Experiment date: [Experiment date]

Abstract

[Abstract to be written by the student.]

1 Introduction and Theoretical Background

2 Experimental Method

3 Results and Analysis

3.1 Laser Wavelength Determination

3.2 Laser Attenuation and Mean Photon Occupation

3.3 Photon-Counting Statistics and Fano-Factor Analysis

3.4 Low-Flux Double-Slit Interference

4 Discussion and Critical Evaluation

5 Experimental Limitations and Improvements

6 Conclusion

7 References
